

IMPORTED DICED DATES

Description

Imported Diced Dates of Desert Valley Date are processed from clean and wholesome imported dates with high inverted sugar content and conform to all U.S.D.A. standards and meet the requirements of the Food, Drug and Cosmetic Act as interpreted by the F.D.A.

Diced Dates are processed from Imported Dates that are processed with controlled heat to reach the proper moisture content. They are then mechanically pitted and the moisture is reduced to the specified level before they are diced to a relatively uniform size. They are lightly coated with either dextrose or oat flour to keep the product separated and free-flowing. Diced Dates are available in sizes of 3/8" sq. or 3/16"sq.

Applications

Used as an ingredient in breads, muffins, cakes, cookies, dry bakery mixes and other confections which require the fruit to remain firm and provide visual identity through a coarse grind.

REFRIGERATE AFTER PURCHASE

CAUTION: MAY CONTAIN PITS
